

00_BRD_VALIDATION_REPORT.md — RAFly Master BRD Validation & Operationalization Audit

Document Version: 1.0.0

Source Document: [RAFLY_MASTER_BRD_V2.md](#)

Auditor: Operations Architect & Documentation Lead

1. EXECUTIVE SUMMARY & VALIDATION OVERVIEW

This Validation Report audits [RAFLY_MASTER_BRD_V2.md](#) to establish what is already clearly defined, what can be directly operationalized into standard operating procedures (SOPs), what requires an explicit business decision, and what must remain strictly internal.

2. AUDIT BREAKDOWN BY CATEGORY

A. Clearly Defined & Ready for Operationalization

- Core Identity & Positioning:** "Build. Protect. Grow." hierarchy (Build: Web/Store; Protect: Security/Recovery/Maintenance; Grow: Ads/CRO/Lead Automation).
- ICP Framework:** ICP-A (Local Professional Services), ICP-B (D2C E-commerce), ICP-C (Compromised Web Infrastructure).
- Disqualification Criteria:** Sub-■15k budgets, contract-refusers, unlimited revision seekers, illegal/unethical niches.
- Milestone Payment Structure:** 30% Kickoff Deposit $\rightarrow$ 40% Staging Demo $\rightarrow$ 30% Final Deployment & Handover.
- Asset Ownership Policy:** 100% transfer of custom code, DNS, hosting, databases, ad accounts, and analytics upon 100% invoice settlement.
- Revision Governance:** 2 formal revision rounds per project scope; subsequent changes require a signed Change Request Form.

B. Decision Required (DECISION REQUIRED)

- DECISION REQUIRED: Referral Reward Program Cap:** Define whether referral rewards are flat credits (e.g. ■5,000 credit) vs percentage with cap (e.g. 10% capped at ■10,000 per closed deal).
- DECISION REQUIRED: Retainer Commitment Period:** Establish whether standard security/growth retainers require a minimum 3-month contract commitment or run month-to-month.
- DECISION REQUIRED: Late Payment Grace Period:** Confirm whether late invoices (> 14 days) incur a 5% late fee or pause active maintenance services.

C. Internal Targets vs Customer Promises (INTERNAL TARGET — NOT CUSTOMER PROMISE)

- INTERNAL TARGET — NOT CUSTOMER PROMISE: Average Deal Value Target:** ■45,000 (\$600).
- INTERNAL TARGET — NOT CUSTOMER PROMISE: Client Retainer Retention:** > 75% 6-month retention rate.
- INTERNAL TARGET — NOT CUSTOMER PROMISE: Monthly Recurring Revenue (MRR) Growth:** Target ■3,00,000/mo by Q4.
- INTERNAL TARGET — NOT CUSTOMER PROMISE: Outreach Conversion Rates:** Prospecting response rates and pipeline conversion metrics are operational benchmarks, not guarantees.

D. Operational Capability Requirements (OPERATIONAL CAPABILITY REQUIRED)

1. **OPERATIONAL CAPABILITY REQUIRED: Enterprise Emergency Triage SLA (1 Hour):** Requires a dedicated 24/7 incident hotline and automated pager rotation.
2. **OPERATIONAL CAPABILITY REQUIRED: 60-Second Lead Qualification:** Requires webhook integration between web forms, CRM, and WhatsApp API.

E. Public vs Strictly Confidential Classification

- **CLIENT-FACING / PUBLIC:** Service descriptions, Build-Protect-Grow methodology, Asset ownership guarantee, Indicative investment ranges, Milestone structure (30/40/30), Client onboarding guide.
- **STRICTLY INTERNAL / CONFIDENTIAL:** Internal hourly rate (■1,500-■2,500/hr), complexity multipliers, lead scoring matrix, internal margin targets (>65%), sales objection handling scripts.

3. COMPLIANCE & GOVERNANCE MATRIX

Document / Area	Public Status	Risk Level	Action Required
---	---	---	---
Service Guide	Client-Facing	Low	Ready for distribution
Pricing Guide	Client-Facing	Medium	Must carry "Indicative" disclaimer
Internal Pricing Master	Internal Confidential	High	Strictly restricted to Management
Security SLAs	Client-Facing	Medium	Clarify Response vs Resolution time
Asset Ownership	Client-Facing	Low	Legally aligned with SOW
