RAFly Digital Growth

Sales Process, Qualification & Objection Handling

1. SALES PIPELINE STAGES

New Lead ➡ Qualification ➡ Discovery Call ➡ Proposal ➡ Negotiation ➡ Won/Lost ➡ Onboarding

2. HANDLING COMMON CLIENT OBJECTIONS

Objection 1: "Freelancer X is offering a website for \$5,000."

- **Internal Positioning:** Do not compete on cheap pricing.

- **Scripted Response:** "We completely understand there are cheap templates available. RAFly builds custom, secure digital growth systems with 100% asset ownership, speed guarantees (< 1.5s), and dedicated security SLAs. A \$5k website often breaks, loads slowly, and has zero security support."

Objection 2: "Why can't you show fixed price cards on the website?"

- **Scripted Response:** "Every business scope is unique. A 5-page brochure site has different infrastructure needs than an e-commerce platform. We scope during a free call so the quote we give is fixed and doesn't change later."

Objection 3: "Is ad revenue or sales guaranteed?"

- **Scripted Response:** "We guarantee high-performing ad setup, targeted campaign optimization, and fast landing pages. We do not guarantee arbitrary sales numbers as sales depend on market demand, product offer, and fulfillment."
